

REMOTE MANAGEMENT

LUCE APP THE MOBILE APP FOR LOCAL PUBLIC LIGHTING MANAGEMENT

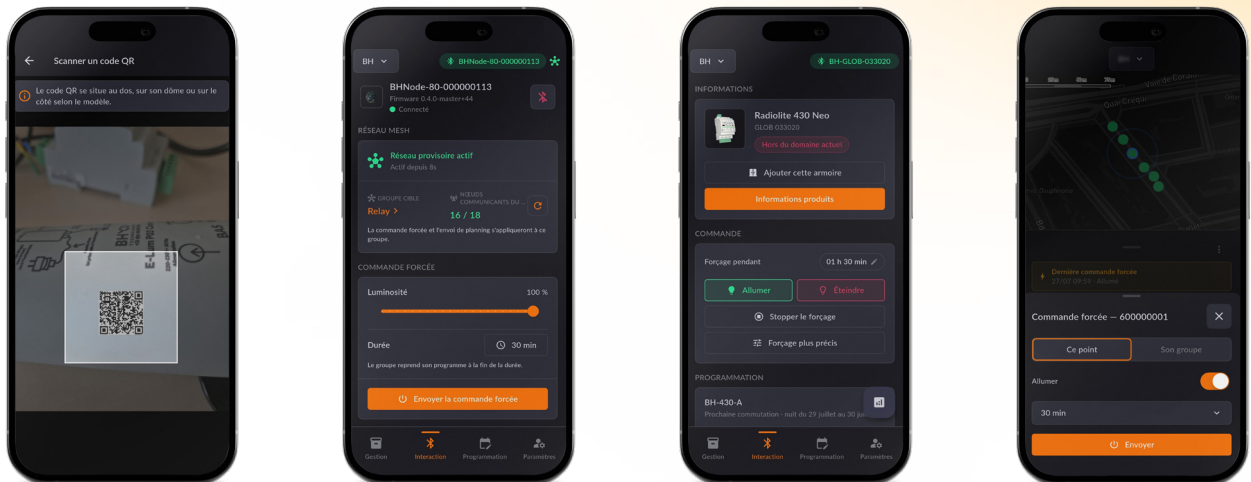

Luce App lets you install, program and control your public lighting equipment in the field, directly from your smartphone.

It replaces the BH Box and now extends its functionality through a Bluetooth connection to BH Nodes, Radiolite 220 and 4XX series units equipped with a Glob antenna.

One single app to configure lighting scenarios, schedules and manual overrides, with data synchronized with the Luce supervision platform. Available free of charge on the Apple App Store and Google Play.

ONE APP FOR ALL YOUR FIELD OPERATIONS

INSTALL

- ♦ Scan to geolocate, register and commission your equipment.

CONFIGURE

- ♦ Access your equipment settings locally.

PROGRAM

- ♦ Define lighting scenarios and schedules.

CONTROL

- ♦ Send manual commands to an individual device or a group of products.

MAINTAIN

- ♦ View the status of your equipment, information and switching history.

WE'RE HERE TO HELP

- ♦ An issue? A question? Access our dedicated support service directly, based in France.
